## WHAT IS 4-H?

The 4-H program begins at the club level. 4-H members, parents, and leaders meet monthly to have fun, learn, and work together in project groups, club activities, special interest groups, and many events.

4-H belongs to the members, their families, and other interested adults who serve as volunteer leaders. Leadership is provided by K-State Research & Extension.

4-H is an informal educational program through which parents, other adults, and youth help young people develop confidence, social skills, decision-making abilities, and subject matter knowledge in a variety of project areas.
